

WASH R-228® ODORLESS

Premium Water-Miscible, One-Step Roller and Blanket Cleaner and Conditioner

7117

DESCRIPTION

WASH R-228® ODORLESS is a superior, water-miscible, one-step ink glaze preventative and a roller and blanket cleaner and conditioner. It is a combination of fine ink solvents that penetrate deep into rubber to get at the imbedded layers of dried ink, dirt, gum and lint. At the same time, its rubber rejuvenator restores precious antioxidants and plasticizers that are constantly being leached out of rubber.

FEATURES

- One-step cleaning.
- Reduces downtime.
- Contains rubber-conditioning "resilium" to maintain the operating efficiency of the rubber surface.
- Water-miscible.
- New blanket concept.

TECHNICAL DATA

Drying Speed	Medium
Water-Miscibility	Yes
Flash Point (°F TCC)	105
VOC (method 24)	6.60
Vapor Pressure (mm HG) (composite, calculated)	2.81
Photochemically reactive (Cal Rule 102)	Yes
Odor/Fragrance	Fragrant
Weight/Gallon	6.75
Specific Gravity	0.810
Shelf Life	6 months

DIRECTIONS

BLANKETS—WASH R-228® ODORLESS may be mixed with water up to 50%. Clean blanket with a saturated rag using a back-and-forth motion. For best results, wipe dry with a clean rag.

To begin each day with a "like new" blanket, use WASH R-228® ODORLESS with VELVEE® as a single daily procedure. In the morning, coat the entire blanket with VELVEE® to replenish the components that keep blankets "like new" and resilient. Clean the treated blanket with WASH R-228® ODORLESS, completely removing VELVEE® solution, and any gum residue that has been reactivated. At the end of the day, clean the blanket with WASH R-228® ODORLESS, leaving it deeply cleaned and ready for the next morning's VELVEE® treatment.

ROLLERS—Pour a quantity of WASH R-228® ODORLESS across the top of roller. Allow to circulate through roller train for a few minutes, then engage scraper blade. Continue to add WASH R-228® ODORLESS until fluid flows clear on blade. Note that WASH R-228® ODORLESS cleans out all of the ink.
